ELLIPTICAL ROTOR PUMP - EVP SERIES
Manufacturer: Enoveneta

Introduction
Enoveneta's elliptical volumetric pumps are made of AISI 304 stainless steel, and are mounted on a trolley with locking system and anti-vibration supports.

All models come with a hopper and auger in AISI 304 stainless steel, and an electric control panel and **reverse drive**.

Various accessories are available, such as raisers for the hopper, a header tank and an inverter.

ELLIPTICAL ROTOR PUMP

Standard features
AISI 304 stainless steel stand with blocking system on anti-vibrating supports

AISI 304 stainless steel pump body complete of de-tachable
mainfold on pump outlet

AISI 304 stainless steel feeding hopper with auger **1**

400/3/50 control panel with **reverse feature**

Optionals
Expansion vessel **2**

Hopper extension **3**

Electronic speed variator **4**
